Subject: - Invitation as a Speaker for expert talk on "Scope and Opportunities in Clinical Trials"

Dear Madam,

Dayanand Education Society's, Dayanand College of Pharmacy, Latur established in 2009. Our college is leading Pharmacy institute in Marathwada region. The Entrepreneurship Development cell is established in the college to motivate and train students towards science and technology so that students become job creators rather than job seekers. As a part of EDC, it gives me an immense pleasure to invite you as a **Speaker** for expert talk on "**Scope and Opportunities in Clinical Trials**" which is to be held on 5th November 2020 by online mode. Your guidance will help our students to develop their entrepreneurial qualities.

I request you to kindly accept our invitation and oblige.

With warm regards.

ENTREPRENEURSHIP DEVELOPMENT CELL **WEBINAR REPORT**

Name of Topic: - "Scope and Opportunities in Clinical Trials"

Name of Speaker: - **1. Ms. Parnavi Raval**

Director, Ingenious Healthcare, Pune.

2. Mr. Bharat Kshirsagar

Ingenious Healthcare, Pune.

3. Mr. Aditya Bramhakule

Ingenious Healthcare, Pune.

Date of Webinar: - 05/11/2020

Online mode: - Microsoft Teams App

No. of Participants Attended: - 116

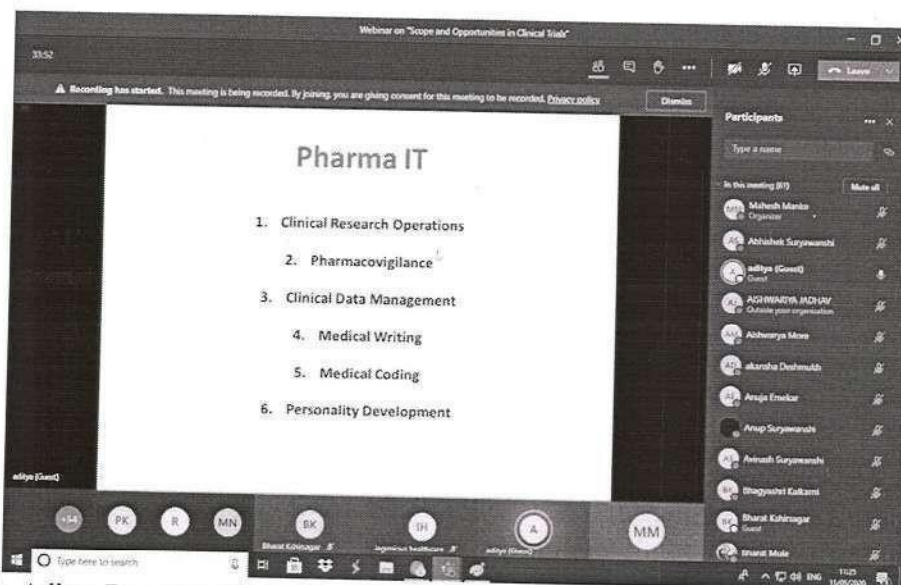

The webinar was aimed at developing Entrepreneur approach in the minds of budding pharmacist. Ingenious Healthcare, Pune is a knowledge processing firm and the main focus of this webinar is to set the career of budding pharmacist in clinical trials. So that, students become job creator rather than job seekers. Clinical trials are essential for the development of new medical treatment and diagnostic tests. Clinical trials are sponsored or funded by various organizations or individuals, including government departments or pharmaceutical, medical device and biotechnology companies.

Main points covered were as follows -

1. The basic requirement to start the new clinical research organization.
2. The procedure for taking permission to start the new clinical research organization from Drug Controller General of India (DCGI).
3. The inclusion and exclusion criteria for the selection of volunteers in clinical trials.
4. Clinical operations

5. Pharmacovigilance
6. Medical writing
7. Clinical data management

The webinar was followed by short question and answer session to clear the doubt and curiosities of students. After the successful completion of session feedback collection and analysis was done. Feedback analysis revealed that the webinar served the aim and satisfied the curiosities of students.

Mr. Aditya Bramhakule sir addressing students online through Microsoft Teams App

The students and faculty members were present during the session

Professional Certificate in **CLINICAL RESEARCH**

Advanced Certificate course In Clinical Research & Medical Technologies

ABOUT RESEARCH :

Most modern medical treatments are emerged from the result of clinical research. The research test whether particular treatments are safe and effective in patients after conducting clinical trials. Clinical trials are essential for the development of new medical treatments and diagnostic tests. Without clinical trials, we cannot properly determine whether new treatments developed using animal models are effective or safe or whether a diagnostic test may work properly. Advanced treatments for all life threatening diseases including cancer, heart disease, asthma etc have been developed through clinical research. Clinical trials also help to improve health care services by raising standards of treatment. Researchers conducting clinical trials can be part of hospitals, pharmaceutical, medical device and biotechnology companies, or a combination of these. These all members involved in clinical trials are continually trained to provide best practice patient care. Clinical trials are sponsored or funded by various organizations or individuals, including government departments or pharmaceutical, medical device and biotechnology companies.

NEED TO CLINICAL TRIALS :

- It helps to prevent diseases by testing a vaccine
- It detect or diagnose diseases or conditions, for example by testing a blood sample
- It treat diseases or conditions by testing a new medicine or other medical procedure.
- It finds out how people can control their symptoms or improve their quality of life by testing how a particular diet affects a condition.

ABOUT COMPANIES :

Ingenious helathcare is pune based Site management organization (SMO) and clinical reserach service provider. Experienced in conducting clinical studies in various therapeutic area which includes primarily Oncology, Haematology, Diabetes, Rheumatoid arthritis, Pain management, Cardiology. Ingenious helathcare academy is experienced in conducting certificate courses in clinical reserach and medical technologies including PV, CDM, and Medical writing in order to educate people involved in clinical research.

Biorustin solutions is contract service provider in the domain of Clinical reserach, Pharma and Biopharma regulatory services, intellectual property rights, strategic sourcing and procurement and human resource. We provide contract clinical trial monitoring, auditing services to Pharmaceutical companies.

WE DO THIS BY :

- Providing a forum for discussion of key matters impacting clinical research.
- Encouraging good relations with other healthcare related groups.
- Providing opportunities for learning and development to improve professional competence.
- Improving confidence and understanding of clinical research.

OUR FOCUS :

CLINICAL OPERATIONS

- Introduction to Clinical Research
