ABOUT THE COURSE

A literature review provides context, informs methodology, maximizes innovation, avoids duplicative research, and ensures that professional standards are met. Literature reviews take time, are iterative, and should continue throughout the research process. By understanding the concepts of a literature review and following a few basic processes, students can enhance both the quality of their educational research and the likelihood of publication. Literature review forms the basis for high-quality medical education research and helps maximize relevance, originality, generalizability, and impact. Preclinical studies includes general principles of preclinical study design, preclinical drug evaluation of its biological activity, potency and toxicity-toxicity test in animals.

COURSE OBJECTIVE-

- The purpose of this subject is to provide a road map and practical recommendations for planning a literature review.
- To enhance both the quality of educational research and the likelihood of publication.
- To understand types of journals and journal finding, role of impact factor in selecting journal.
- To understand various tools used in the writing of research or review articles.
- To understand general principles of preclinical study design,

Shekhar

Time: -01:00 hrs

Max Marks: -30

Note: -i) All questions are compulsory

1. CPCSEA is...

- a) Committee for the Purpose of Control and Supervision of Experiments on Animals
- b) Conference for the Purpose of Control and Supervision of Experiments on Animals
- c) Committee for the Process of Control and Supervision of Experiments on Animals
- d) Community for the Preparation of Control and Supervision of Experiments on Animals

2. The main functions of CPCSEA are....

- a) Permission for conducting experiments involving use of animals
- b) Action against establishments in case of established violation of any legal norm/stipulation.
- c) Approval of Animal House Facilities
- d) All of these

3. Main Role of IAEC is....

- a) Review and approve all research proposals involving animal experiments
- b) To assure quality maintenance and welfare of animals used in laboratory studies while conducting research
- c) Both a and b
- d) None of these

4. Design expert is software

- a) Pharmacokinetic
- b) Optimization
- c) Pharmacodynamic
- d) All of these

5. According to Biopharmaceutics classification system BCS Class II is...

- a) High solubility, Low permeability
- b) Low solubility, High permeability
- c) Low permeability, Low Permeability
- d) High solubility, High permeability

6. Which of the following method is used to determine area under curve

- a) Trapezoidal method
- b) Cut and weigh method
- c) Integration method
- d) All of these

7. Bioavailability is expressed by formula....

- a) AUC_{IV} / AUC_{Oral}
- b) AUC_{Oral} / AUC_{test}

8. PK solver is used to study

- a) Pharmacokinetic
- b) Pharmacodynamic
- c) Optimization
- d) A and B

9. SPSS and Minitab are....

- a) Statistical software
- b) Methods of optimization
- c) Software to perform animal study
- d) None of the above

10. Which of the following is not an important parameter for Plasma level time study..

- a) C max
- b) T Max
- c) The area under plasma level time curve
- d) Steady state level

11. Which instrument is used to analyze animal blood sample..

- a) UV Spectrophotometer
- b) HPLC with PDA Detector
- c) HPLC with UV Detector
- d) All of these

12. How many subjects are studied in Phase I clinical trials?

- a) 20-80
- b) 10-20
- c) 150-300
- d) More than 300

13. Grammarly is ...

- a) Used in research writing
- b) Used to minimize grammatical errors
- c) Free spelling check application
- d) All of these

14. Blood sample from rat can be collected through..

- a) Retro orbital plexus
- b) Tail cut method
- c) Both a and b

15. Preclinical study completed..

- a) Prior to submission of IND
- b) After submission of IND
- c) After submission of NDA
- d) During submission of ANDA

16. Clinical trials are initiated if there is promising result from animal study

- a) True
- b) False

17. Peak plasma concentration Cmax depends on rate of absorption, rate of elimination of drug and amount of dose administered.

- a) True
- b) False

18. Half-life of drug is important pharmacokinetic parameter can also be calculated from..

- a) Cmax
- b) Absorption rate constant
- c) elimination rate constant (KE)
- d) All of these

19. Which of the following is true

- a) PK solver can be used for solving basic problems in pharmacokinetic (PK) and pharmacodynamics (PD) data analysis.

- b) The program provides a range of modules for PK and PD analysis including noncompartmental analysis (NCA), compartmental analysis (CA).
- c) It is freely available menu-driven add-in program for Microsoft Excel written in Visual Basic for Applications (VBA) .
- d) All of these

20. Phase IV clinical trial is..

- a) post-marketing surveillance
- b) PMS studies exemplify the difference between efficacy and effectiveness.
- c) Phase IV trials are often used to investigate drug safety after approval.
- d) All of above

21. QBD and design of experiment can be done by using,

- a) Winnonlin
- b) Pk Solver
- c) Design Expert
- d) None of above

22. Sci hub, Pubmed, google scholar are..

- a) Search engine
- b) Document organiser
- c) Learning Software
- d) Reading Aid

23. MS Excel can be used for...

- a) Drawing Graphs
- b) Calculations
- c) Calibration curve
- d) All of these

24. Institutional Animal Ethics Committee (IAEC)

- a) is registered with the CPCSEA
- b) it review and approve all types of research proposals involving small animal experimentation before the start of the study.
- c) IAEC includes eight members of which three are nominated by CPCSEA and remaining five members by the institute.
- d) All of these

25. Ratio of maximum safe concentration to minimum effective concentration of the drug; is called as

- a) Therapeutic range
- b) Time of peak concentration
- c) Therapeutic index
- d) Therapeutic equivalence

26. Bibliography means....

- a) Keywords
- b) List of references
- c) Abbreviation
- d) Abstract

27. A citation is...

- a) Literature survey
- b) a Reference to a source
- c) Impact factor
- d) None of these

28. In silico drug discovery involves.. that use a computer.

- a) molecular modeling approaches, machine learning,
- b) Quantitative structure-activity relationships,
- c) network analysis tools, data analysis tools
- d) All of these

29. Wistar and Albino are types of

- a) Rat
- b) Mice
- c) Rabbit
- d) Both a and b

30. The amount of drug from a formulation that reaches the systemic circulation compared to an intravenous (IV) dose is ...

- 1. Absolute bioavailability
- 2. Relative bioavailability

Note: -i) All questions are compulsory

1. Literature is a
 - A. Written Record
 - B. Published Record
 - C. Unpublished Record
 - D. All of these
2. On what does Phase 3 trials test?
 - A. Animals
 - B. Healthy Human volunteers
 - C. Randomized trial with group of patients
 - D. None of the above
3. According to Biopharmaceutics classification system BCS Class IV is...
 - A. High solubility, Low permeability
 - B. Low solubility, High permeability
 - C. Low solubility, Low Permeability
 - D. High solubility, High permeability
4. ANDA is for _____.
 - A. Generic drug approval
 - B. Clinical trial
 - C. Pre-clinical trial
 - D. All of the above
5. What is the purpose of Investigational New Drug (IND) Application?
 - A. Permission to administer a new drug to humans
 - B. Permission to administer a new drug to animals
 - C. Permission to market a new drug
 - D. Permission to manufacture the new drug
6. Pharmacovigilance is applicable for _____.
 - A. Drugs in clinical trial
 - B. Drugs in clinical trial and in market
 - C. Only for phase III trial
 - D. None of the above

7. **With respect to the drug development process the NDA means_____.**
- A. New Document Application
 - B. National Drug Application
 - C. New Drug Application
 - D. Novel Drug Application
8. **The main functions of CPCSEA are....**
- A. Permission for conducting experiments involving use of animals
 - B. Action against establishments in case of established violation of any legal norm/stipulation.
 - C. Approval of Animal House Facilities
 - D. All of these

11. **Box behenken, Factorial design, Response surface methodology are used in software**
- A. Design Expert
 - B. Minitab
 - C. SPSS
 - D. Winnoline
12. **Mendley is managing software**
- A. Introduction
 - B. Reference
 - C. Experimental work
 - D. Project
13. **Journal is selected for publication based on...**
- A. Impact factor
 - B. Citation
 - C. H Index
 - D. I 10 index

14. Which software is used for the analysis of statistical data.

- A. Design Expert
- B. Minitab
- C. SPSS
- D. Winnoline

15. Identify the correct statement about phase-II clinical trial.

- A. Used for the study of drug absorption & metabolism in human.
- B. Used for the study of drug effectiveness in treating the disease & short term side effects in patients.
- C. Used for the study of drug safety (Benefits v/s risk analysis) & long term side effects in patients.
- D. Used for the study of drug safety and effectiveness after the launching of drug in the market.

16. Which of the following is the pharmacodynamics method of studying bioavailability?

- A. Acute pharmacologic response
- B. Plasma-level time studies
- C. Urinary excretion studies
- D. Stool excretion studies

17. Which of the following is not an important parameter of plasma level time studies?

- A. C_{max}
- B. T_{max}
- C. The area under the plasma level-time curve
- D. Steady state level

18. Thesis is also known as...

- A. Research report
- B. Dissertation
- C. Monograph
- D. Book

19. A is a reference to a source.

- A. H index
- B. I 10 index
- C. citation
- D. Plagiarism

20.is presenting someone else's work or ideas as your own, with or without their consent, by incorporating it into your work without full acknowledgement.
- A. Informed consent
 - B. Citation
 - C. Plagiarism
 - D. All of these
21. The first part of the research article is
- A. Introduction
 - B. Material and method
 - C. Abstract
 - D. Result and discussion
22. PK solver works in
- A. Microsoft words worksheet
 - B. Microsoft excel worksheet
 - C. both a and b
23. Phase IV trials consist of clinical research conducted after a drug has been approved.
- A. True
 - B. False
24. Preclinical study completed ..
- A. Prior to submission of IND
 - B. After submission of IND
 - C. After submission of NDA
 - D. During submission of ANDA
25. IAEC will review and approve all types of research proposals involving small animal experimentation before the start of the study. For experimentation on large animals, the case is required to be forwarded to CPCSEA in prescribed manner with recommendation of IAEC.
- A. True
 - B. False
26. Ex-vivo models refers to..
- A. In the body
 - B. Outside the body
 - C. Using computer
 - D. None of these

- 27. Animal study can be performed for..**
- A. To study bioavailability
 - B. For in vivo in vitro correlation
 - C. To determine C max and T max
 - D. All of these
- 28. Comparison of the rate and extent of the absorption of drug from the formulation under study to the data of a reference standard that is given intravenously is known as:**
- A. Biopharmaceutics
 - B. Relative bioavailability
 - C. Absolute bioavailability
 - D. Bioavailability
- 29. The drug concentration between MEC and MSC represents the....**
- A. Therapeutic Index
 - B. Therapeutic range
 - C. Therapeutic outcome
 - D. Therapeutic ratio
- 30. The time period for which the plasma concentration of drug remains above minimum effective concentration is known as _____**
- A. Onset of time
 - B. Onset of action
 - C. Duration of drug of action
 - D. Therapeutic range
- 31. Aim of the new drug development is...**
- A. Develop clinically efficacious and safer drugs
 - B. Discover new class of drug
 - C. Develop economically viable drug
 - D. All of these
- 32. An abbreviated new drug application (ANDA) contains data which is submitted to FDA for the review and potential approval of a generic drug product.**
- A. True
 - B. False
- 33. What is informed consent in a clinical trial?**
- A. The subjects do not know which study treatment they receive
 - B. Patients injected with placebo and active doses
 - C. Fake treatment
 - D. Signed document of the recruited patient for the clinical trial procedures

34. The purpose of preclinical testing is:

- A. To verify that a drug is sufficiently safe and effective to be tested in humans.
- B. To undergo preliminary testing in healthy humans to monitor the effects of the drug.
- C. To create a basic outline for the larger scale future tests on a widespread population.
- D. To develop method of drug analysis

35. Science of collecting, monitoring, researching, assessing and evaluating information from healthcare providers and patients on the adverse effects of medications is known as

- A. Pharmacovigilance.
- B. Clinical Trails.
- C. Observational study.
- D. Qualitative study.
