

# Certificate Course on Patent Drafting for Beginners

SWAYAM is a programme initiated by Government of India and designed to achieve the three cardinal principles of Education Policy viz., access, equity and quality. The objective of this effort is to take the best teaching learning resources to all, including the most disadvantaged. SWAYAM seeks to bridge the digital divide for students who have hitherto remained untouched by the digital revolution and have not been able to join the mainstream of the knowledge economy.

## About the course

Patent specifications — the documents which encompass the patent right in a technological invention are techno-legal documents created at the interface of science and law. Unlike technical writing, patent law requires drafting patent specifications to satisfy certain requirements. This course is designed to enable beginners without any prior knowledge on patent drafting to draft patent specifications on their own. The course will cover the fundamental principles of patent drafting and discuss in detail the concepts in patent law in the context of patent drafting.

## Course Syllabus

**Week 1:** Invention as a solution to an unsolved Problem

**Week 2:** Drafting a Claim

**Week 3:** Types and Arrangement of Claims

**Week 4:** Structure of the Patent Specification
