## WHY ME?

If you have to ask Why me?  
When you're feeling really blue,  
When the world has turned against you  
And you don't know what to do,  
When it pours colossal raindrops,  
And the road's a winding mess,  
And you're feeling more confused  
Than you ever could express,  
When the saddened sun won't shine,  
When the stars will not align,  
When you'd rather be Inside your bed,  
The covers pulled Above your head,  
When life is something That you dread,  
And you have to ask Why me? . . .  
Then when the world seems right and true

## Cleanliness of mind and body.....

**“Cleanliness is next to godliness” says an old proverb.... this saying simply emphasises the great importance of cleanliness. true godliness surely means cleanliness of soul and body and hence the old proverb should read “cleanliness is a part of godliness”.**

**cleanliness of body is necessary for physical health and disease go together. Disease germ breed, thrive and multiply in dirt. the epidemic diseases which sweep over a country and carry off thousands, are the result of the dirty habits and surroundings of the people .no one can keep healthy who does not keep clean.**

**cleanliness of body is also necessary for self-respect .no one can accept to mix with decent society if the person is not clean and neat. it is an insult to respectable people to meet them with dirty face and hands.**

**but even more important than cleanliness of body is cleanliness of mind. to call a mind clean or dirty is to use symbolic language. Just as light is the symbol of truth and goodness and darkness is the symbol of evil and ignorance, so that is the symbol of moral evil and cleanliness of moral purity. Sin is dirt and in all religion the sinner prays to God for cleansing.**

**a person may be clean in body but if his mind is full of impure desires and dirty thoughts, he is the dirty person. true cleanliness then is not only next to but a part of true godliness.**

## Never give up.....

If I made a mistake then I would have to irritate  
and do it once again even see the pain.  
but there also lays a price  
and that made me realise that even  
if I was to fail it would be a learning train  
if I hope for medals and a curve,  
I can't just rely on luck  
I must do hard work to show the world

## The world best brother....

Life can be funny,  
people come and go,  
but some last the distance,  
and watch as you grow,  
those are the people,  
who captures your heart,  
and I want you to know,  
that you have left your mark,  
you are one in million,  
and a diamond through and through,  
you are the world's best brother  
thanks for being you.

## Never give up.....

Never give up in life man  
Never give up life  
Life is the greatest gift  
No one here is misfit

Why to sink in despair  
When hop resides everywhere  
What a path without a turn  
What a flower without a throat

We need to know our goal  
And nicely play our role  
Why to fear with dark  
When there are million stars

What a joy without sadness  
What a goal without weariness  
Everything is for a reason,  
Like we need every season  
Face the hurdles with a smile  
Never give up in this life

## Reading as a Hobby

A hobby is an occupation in which a man engages himself voluntarily either for relaxation or for passing his leisure hours. Hobbies have great value. After doing the day's labour one feels refreshed when one occupies oneself in a hobby. A hobby drives away fatigue and provides us ample relaxation and enjoyment. It breaks the monotony of our routine work.

Different people have different hobbies depending upon their tastes, temperaments and circumstances. The range of hobbies is thus very large. Gardening, photography, stamp collecting, mountain-climbing, rowing and boating are some of the interesting hobbies. Taking long walks and playing musical instruments are very useful hobbies.

To my mind reading is a very instructive and pleasant hobby. Whenever I have leisure I study books, journals and magazines. This hobby adds to my knowledge, sharpens my intellect and broadens my sympathies.

Reading provides a welcome relief from our dull, daily routine. It is an excellent pastime in which the rich and the poor alike can indulge in their spare time. No doubt, the books on mathematics, science and philosophy may be a hard task to read. But the books on history and civilization, biography, accounts of travel and exploration, light verses and drama can be read with pleasure. The variety and number of magazines and periodicals are equally astonishing. One can choose any one or more of the magazines and journals according to one's own choice.

Books are a great blessing. Their reading serves to delight, ornament and ability. Hence every person must indulge himself/herself in reading and make reading books a part and parcel of our lives.

## **Future prospectus of Pharmacy Profession in India**

Pharmacy profession has evolved from its conventional and traditional system to an advanced patient focused basis over the years. In the past century the pharmacist was more involved in compounding and manufacturing of medicines, but this role has significantly reduced over time. This advancement in the role of pharmacist calls for them to be the part of the broader health care team working for providing better health care for the patients, thus contributing in achieving the global millennium development goals. To match up the role of today's pharmacist need to be expanded to include pharmaceutical care concepts, making the pharmacist a health care professional rather than a drug seller in a commercial enterprise.

Therefore, pharmacy schools should prepare a program that has competence with the changing role of pharmacist. The education should provide ability for critical thinking, improve the problem solving skills and decision-making during pharmacotherapy. The student should be trained to create, transmit and apply new knowledge based on cutting edge research in the pharmaceutical, social, and clinical sciences, collaborate with other health professionals and learn to enhance the quality of life through improved health for the people of local society and as well as the global community.

## **Pharmacy and Its Promising Future in India:**

### **Advancements and Opportunities**

- **Introduction:** Pharmacy, as a critical component of healthcare, plays a pivotal role in ensuring the well-being of individuals and the overall health infrastructure of a nation. In India, the field of pharmacy has witnessed tremendous growth and transformation over the years. With a population of over 1.3 billion people, the demand for quality healthcare services and access to affordable medications is ever-increasing. This article explores the future of pharmacy in India, focusing on advancements, challenges, and opportunities in this dynamic field.
- **Technological Advancements:** The integration of technology in pharmacy has revolutionized the way medicines are discovered, developed, distributed, and dispensed. In India, digital health platforms, telemedicine, and e-pharmacies have gained significant momentum, especially in urban areas. The advent of Artificial Intelligence (AI), Big Data analytics, and machine learning has enhanced drug discovery processes, making them faster and more efficient. Furthermore, the adoption of electronic health records and inventory management systems has improved patient care and pharmacy operations, ensured accuracy and reduced errors.
- **Regulatory Framework and Quality Control:** The Government of India has been actively working towards strengthening the regulatory framework for pharmaceuticals, focusing on quality control and patient safety. The implementation of Good Manufacturing Practices (GMP), stringent quality checks, and adherence to international standards have boosted India's reputation as a reliable producer of generic drugs. This has not only ensured the availability of affordable medications but has also opened doors for increased exports, making India a global pharmacy hub.
- **Role of Pharmacists:** Pharmacists, as healthcare professionals, are instrumental in bridging the gap between doctors and patients. They provide valuable insights on medication use, dosage, potential side effects, and interactions, ensuring optimal therapeutic outcomes. The future of pharmacy in India envisions an expanded role for pharmacists, involving patient counselling, disease management, and promoting preventive healthcare. This shift towards a more patient-centric approach will enhance the overall healthcare experience, particularly in rural and underserved areas.

➤ **Pharmaceutical Education and Research:** Pharmacy education in India has evolved significantly, aligning with global standards and technological advancements. The focus is now on developing competent professionals equipped with the knowledge and skills necessary to meet the emerging challenges in the field. Collaborations between academia and the pharmaceutical industry have increased, fostering research and innovation. The establishment of research institutes, drug discovery centres, and the promotion of interdisciplinary studies contribute to the growth of pharmaceutical research and development in the country.

➤ **Challenges and Opportunities:**

- While the future of pharmacy in India holds immense potential, it also faces several challenges. One significant hurdle is the need to address the issue of counterfeit medicines and ensure a robust supply chain. Strengthening pharmacovigilance systems and implementing stringent quality control measures are essential to maintain the trust and safety of patients.

- Furthermore, the growth of e-pharmacies presents both opportunities and challenges. E-pharmacies have the potential to improve medication access, especially in remote areas, but they need to comply with regulations and maintain high ethical standards.

➤ **Conclusion:** The future of pharmacy in India looks promising, with advancements in technology, regulatory reforms, and the evolving role of pharmacists. The integration of digital health, research and development, and patient centred care will play a crucial role in shaping the landscape of pharmacy in India. As the nation continues to strive for affordable and accessible healthcare, the pharmacy sector will remain at the forefront, ensuring the well-being of millions and contributing to India's overall health infrastructure

## **Education Is the Key to Success -**

**I believe education is the most important tool you can receive, that can bring you most success in society today. Education lessens the challenges you will face in life. **A person with a higher education will be easily qualified compared to a person without an extended education; as one will be prepared to do various tasks that careers demand as well as meet job standards.**

**I also believe education is important because it helps us develop a unique perspective of looking at life. Education has played a major role for all individuals in the society. It has allowed the community to succeed both socially and economically by enabling it to develop common culture and values.**

**Education is the reason our world is the way it is today; doctors have been close to finding cures for covid because of a higher education; our technology has been enriched compared to the 19th century all because of education. If the importance of education is not recognized, then someday education will become less relevant.**

**Education serves to unite and strengthen our country. Without education people would not be able to distinguish right from wrong. If this should happen, then our society will find itself at a large disadvantage compared to other countries. “Education is the most powerful weapon which you can use to change the world” once said by a wise man name Nelson Mandela, and that is why I strongly agree why education is important.**

## **Introduction to Share Market, Crypto Currency and Mutual Funds**

**Share Market:** The share market, also known as the stock market or equity market, is a platform where individuals and institutions buy and sell shares of publicly listed companies. Shares represent ownership in a company and entitle the shareholder to a portion of its profits and assets. The main purpose of the share market is to facilitate the buying and selling of these shares. Participants in the share market include investors, traders, and companies. Investors typically buy shares with the intention of holding them for the long term, expecting the value of the shares to increase over time. Traders, on the other hand, engage in short-term buying and selling of shares to take advantage of price fluctuations.

The share market operates through stock exchanges, such as the National Stock Exchange (NSE) or the Bombay Stock Exchange (BSE), where companies list their shares for trading. Buyers and sellers place orders through brokers who execute the trades on their behalf. Factors influencing share prices include the company's financial performance, market conditions, economic indicators, news, and investor sentiment. Share markets play a crucial role in mobilizing capital, allowing companies to raise funds for expansion, and providing individuals with investment opportunities.

**Cryptocurrency:** Cryptocurrency is a digital or virtual form of currency that uses cryptography for secure financial transactions, control the creation of additional units, and verify the transfer of assets. Unlike traditional currencies issued by central banks, cryptocurrencies operate on decentralized networks called blockchains.

The most well-known cryptocurrency is Bitcoin, but there are thousands of other cryptocurrencies, often referred to as altcoins, including Ethereum, Ripple, and Litecoin. Each cryptocurrency typically has its own unique features and use cases. Cryptocurrencies offer several advantages, such as decentralization, immutability, and the potential for faster and cheaper transactions compared to traditional financial systems. They can be used for various purposes, including online purchases, investments, and remittances. Cryptocurrency prices are highly volatile and can fluctuate dramatically within short periods. Factors influencing cryptocurrency prices include market demand, regulatory developments, technological advancements, media coverage, and investor sentiment. Cryptocurrencies are bought, sold, and stored using digital wallets and are traded on cryptocurrency exchanges. Investors can also participate in initial coin offerings (ICOs), which are crowdfunding events where new cryptocurrencies are offered to the public.

**Mutual Funds:** Mutual funds are investment vehicles that pool money from multiple investors to invest in a diversified portfolio of securities, such as stocks, bonds, or other assets. They are managed by professional fund managers who make investment decisions on behalf of the investors. When you invest in a mutual fund, you purchase units or shares of the fund. The value of these units is based on the net asset value (NAV) of the mutual fund, which is calculated by dividing the total value of the fund's assets by the number of units outstanding. Mutual funds offer investors the opportunity to access a diversified portfolio without directly managing the investments themselves.

Mutual funds come in various types, including equity funds, bond funds, money market funds, and balanced funds. Each type has a different investment objective, risk profile, and potential return. Investors can choose mutual funds based on their investment goals, risk tolerance, and time horizon. One advantage of mutual funds is that they provide professional management and expertise, making them suitable for investors who may not have the time or knowledge to manage their own portfolios. Additionally, mutual funds offer liquidity, as investors can typically buy or sell their units on any business day at the fund's current NAV. However, it's important to carefully consider the fees, expenses, and past performance of mutual funds before investing.

Different mutual funds have varying cost structures, and historical performance is not a guarantee of future results. Remember that investing in the share market, cryptocurrency, or mutual funds carries risks, and it's important to conduct thorough research, diversify your investments, and consider your risk tolerance before making any investment decisions.

## Mother of Orphans

**Sindhu Tai Sapkal**

**14/11/1948 to 04/01/2022**

Sindhu Tai Sapkal, a Marathi woman, the mother to more than a thousand impoverished children, the living legend and one of the most courageous personalities from India, started her life journey from the streets. At the age of nine, she was married to a man with the age difference of 21 years. Her husband was a 30-year-old cattle-herder, who would often beat her for no reasons. At the age 20, she was deserted by her husband and thrown out of her house along with an infant baby girl. She landed up on a railway station and tried to commit suicide twice to end her gruesome life.

After dealing with the abject poverty at her father's home, experiencing neglected and painful life at husband's home and finally leaving alone to live in the streets, Sindhutai decided not to give up and fight against the cruelty of male dominated society. During the homelessness, she came across dozens of street children and orphans living pathetic lives. A day, she got up with a resolve to fight for them and give them a better and decent life. Her courage and determination encouraged others to come up with their helping hands. Soon, she was taking care of over a hundred orphans, and street children. Years passed by and the number

increased but their happy faces kept steeling her determination. She came to the notice of the world after a Marathi film "Mee Sindhu Tai Sapkal" on her life and works was released in 2010. It was then that people came to know she had has been fighting against the patriarchal social order and showing people many creative ways to help the helpless.

## **Current Lifestyle: Our Physical & Mental Health**

"A healthy mind in a healthy body", represents the ideal of human well-being. A person is only healthy when they feel good both mentally and physically. What do you think of when you hear the word "health"? Most of our brains automatically think physical health exercising, healthy eating, drinking water, etc. And while physical health does play a large role in keeping our bodies in shape and functioning properly, our mental health is just as important to maintain to achieve a healthy and happy lifestyle.

The link between mental health and physical health is generally misunderstood because the mind and body are considered two separate entities, but oftentimes these two entities need to work together for our own wellbeing. Our mental health can directly affect our physical health and vice versa.

### **How Mental Health Can Affect Your Physical Health**

A healthy lifestyle encompasses more than most people realize: physical activity and outdoor sports improve mood and are a viable means of treating depression and anxiety, as well as improving the mental well-being of the population. Research shows that being in nature can make us feel happier, feel our lives are more worthwhile, and reduce our levels of depression and anxiety. Regular physical activity is one of the most important things you can do for your health. Being physically active can improve your brain health, help manage weight, reduce the risk of disease, strengthen bones and muscles, and improve your ability to do everyday activities. Adults who sit less and do any amount of moderate-to-vigorous physical activity gain some health benefits.

Only a few lifestyle choices have as large an impact on your health as physical activity. Everyone can experience the health benefits of physical activity – age, abilities, ethnicity, shape, or size do not matter. Both eating patterns and physical activity routines play a critical role in weight management. You gain weight when you consume more calories through eating and drinking than the amount of calories you burn, including those burned during physical activity. Heart Disease & stroke are two leading causes of death in the United States. Getting at least 150 minutes a week of moderate physical activity can put you at a lower risk for these diseases. You can reduce your risk even further with more physical activity. Regular physical activity can also lower your blood pressure and improve your cholesterol levels. . Regular physical activity can reduce your risk of developing type 2 diabetes and metabolic syndrome.

**Metabolic syndrome is some combination of too much fat around the waist, high blood pressure, low high-density lipoproteins (HDL) cholesterol, high triglycerides, or high blood sugar. People start to see benefits at levels from physical activity even without meeting the recommendations for 150 minutes a week of moderate physical activity. Additional amounts of physical activity seem to lower risk even more. Being physically active lowers your risk for developing several common cancers. Adults who participate in greater amounts of physical activity have reduced risks of developing various cancers. Physical health is the state of your physical body and how well it is operating. Ways to maintain your physical health can be broken down into four categories.**

- 1. Lifestyle – staying active throughout your day, getting enough sleep, drinking water**
- 2. Diet – eating balanced foods that nourish your body**
- 3. Hygiene – keeping yourself and your environment clean and kept-up**
- 4. Exercise – using and strengthening your body and muscles**

**Mental health includes our emotional, psychological, and social well-being. It affects how we think, feel, and act. It also helps determine how we handle stress, relate to others, and make healthy choices. Mental health is important at every stage of life, from childhood and adolescence through adulthood. So, which is more important, mental health or physical health? The link between physical and mental health is complex, but the answer is simple your body needs both mental health and physical health to function properly and let you live a happy and healthy life. If you are struggling in one area, you may choose to focus on one over the other and that is okay. Just remember the influence they have on each other and how important it is to keep up with your health both mentally and physically. The unhealthy lifestyles and behaviours which plague the public's health – smoking, excess alcohol consumption, misuse of illicit drugs, consumption of, sugary foods and over-eating in general – are used because they are effective in managing stress. For example, eating carbohydrates increases serotonin levels, which may boost mood. People find it very difficult to stop these behaviours because they can be addictive. Other factors like social norms, availability, price and legality also play a role and provide important opportunities for regulation, but a key reason most people find it difficult to change their lifestyle is because the lifestyle assuages emotional distress.**

- **Almost 50% of all tobacco is now smoked by people with mental illness**
- **Obesity is more prevalent among people with mental illness**
- **Alcohol and drug misuse are commonly associated with mental illness**
- **Mental health problems in childhood predict the adoption of unhealthy lifestyles in adolescence.**

**Healthy foods, particularly it would seem fruit and vegetable consumption up to eight portions a day, can positively affect mental as well as physical health. Levels of physical activity can also impact on mental wellbeing in terms of mood, stress, self-esteem, anxiety, dementia and depression. Current NICE guidance recommends the use of structured physical activity in the treatment of depression. Improving mental wellbeing can improve physical health Emerging evidence suggests that improving mental wellbeing can contribute substantially to improving physical health, reducing morbidity and mortality. For example, a meta-analysis found that positive mental well-being including positive affect (e.g. positive mood, joy, happiness, Vigor, energy) and positive trait-like dispositions (e.g. life satisfaction, hopefulness, optimism, sense of humour) were significantly associated with reduced cardiovascular mortality in healthy populations, and with reduced death rates in patients with renal failure and with HIV (Human immunodeficiency virus) infection. Conversely, negative affective styles such as anxiety and hostility have been shown to predict increased risk for illness and mortality. Thus, public mental health interventions to promote mental wellbeing can work in conjunction with other public health interventions focused on behaviour change and risk factor reduction to improve physical health. Distinct from but interlinked with, and often incorporated into definitions of, mental wellbeing can also affect physical health and is relevant here. A seminal study from 1979 found that relationships with others – partners, family and friends and to a lesser extent more formal social groups – reduced the risk of mortality. More recent work reinforces the impact of the social context on health. For example, a study in Wales showed that neighbourhood social capital is linked to the health of individuals within that neighbourhood. Evidence exists for interventions and approaches that promote mental wellbeing and improve physical health. At present services are provided to address mental health issues independently from services to address unhealthy lifestyles, and although lifestyle interventions are increasingly informed by psychological insights, they do not aim to promote mental health and wellbeing as an important part of the treatment package.**

Lifestyle change programmes could be more successful if they focused as much on mental health as they did on lifestyles and the interplay between the two. Good evidence exists for a range of public mental health interventions across the life course that could be commissioned to promote mental wellbeing, encourage a healthy lifestyle and prevent chronic disease and mental illness. Robust evidence of effectiveness exists for public mental health interventions aimed to give children a good start in life. This is also an opportune time to intervene as 75% of mental illness starts before the age of 25 years and many health risk behaviours such as smoking and substance misuse start in childhood, having a long- lasting adverse effect. Interventions include a wide range of options to help people ‘live well’, promote mental health, and prevent the adoption of health risk behaviours, such as targeted approaches for smokers with mental disorder or physical activity programmes for those with depression. Evidence-based interventions include physical activity to improve mental functioning, reduce mental illness, decrease social isolation and improve wellbeing in older people the elderly, and addressing physical disabilities including hearing loss to improve quality of life and reduced social isolation. The healthier lifestyle habits you practice, the better prepared your mind and body will be to handle any challenges life brings your way.

**Look after your physical health**  
**Steer away from harmful substances**  
**take two minutes to focus on the world around you**  
**Do activities that you enjoy**  
**Seek professional help**

## मैत्री

विश्वासाची एक एक  
पायरी चढत जाऊन  
तयार होणारं  
अतूट नातं म्हणजे मैत्री....

आयुष्याला आकार देणारं  
मनाला मनाशी जोडून  
ठेवणार नातं असतं मैत्रीचं...

सुखाचा आणि दुःखाच्या  
नावे मध्ये कायम  
सोबत उभे राहून  
आधाराचा हात हातात देते ती मैत्री....

गोरे रोहन  
बी.फार्मसी द्वितीय वर्ष

भेट नाही, बोलणं नाही  
तरी तो किंवा ती  
मला विसरणार नाही ही  
खात्री मनात ठेवते ती मैत्री...

आपल्याला आपल्यापेक्षा  
जास्त समजून घेत  
जीवाला जीव लावते ती मैत्री...

प्रेमाच्या नात्यापेक्षाही  
सर्वात जिद्दाळ्याचं  
कधी हट्टी तर कधी एकदम रागाचं  
पण कायमस्वरूपी  
हक्काचं घर असते ते मैत्री...

## मैत्री

मैत्री ही नाजुक फुलपाखरासारखे असावी,  
निशात वाऱ्यांबरोबर डोलनारी

मैत्री म्हणजे काय,  
मैत्री म्हणजे, सुखात दुखात साथदेणारी  
एक शब्द न बोलता  
भावना समजून घेणारी  
दुखाच्या वेळी दिलासा देणारी

मैत्री ही निर्मळ स्वच्छ पाण्यासारखी असावी  
स्वताचा विचार न करता मदत करणारी  
न बोलताच आनंद आणि दूख समजून घेणारी,  
ती असते मैत्री.

मैत्री म्हणजे त्याग, एकमेकांचा विश्वास,  
मैत्री म्हणजे आनंदाचे शान

मैत्री म्हणजे डोळ्यातील आश्रु शेखण्यासाठी  
पूढे आलेले हात  
निरंतर काळपासून चालत येणारी परंपरा म्हणजे  
मैत्री.

मैत्री म्हणटल की कितितरी आठवणी  
मैत्रिणी सोबत केलेली मस्ति, गप्पा गोष्टी  
मैत्री सारख हे अनमोल नात, ।  
अंधारात उजेड शोधण्यासारखच आहे.  
मैत्री ही नाजुक फुलपाखरासारखे असावी!

## मृत्यू

सजवत होते मला मी शांत निजले होते...  
बहुतेक आसवांच्या धारेनं मी चिंबभिजले होते...!

शेवटची ती अंधोळ होती गरम पाण्याची...!  
ज्याला त्याला घाई मला डोळे भरून पाहण्याची...!

ज्यांच्या खांद्यावर माझं गेलं होतं बालपण...  
त्यांनीच पुन्हा उचलून घेतलं आज पण...!

जवळचे सारे होते होतं कुणीतरी परक...  
म्हेंवू नका मोठ्याने म्हणत होत सारखं...!

आज वेगळच काहीतरी घडत होतं...  
वैऱ्यांचेही प्रेम माझ्यावर पडत होतं...!

तिथंपर्यंत नेऊन सुद्धा माझ्यावर प्रेम लूटवत होते...  
जोरजोरात रडून सगळे मला उठवत होते...!

अजून चार लाकडं द्या म्हणजे तेवढ्यात भागेल...  
माझ्याच कुणीतरी विचारलं अजून किती वेळ लागेल...!

सरनावर झोपूनही मी मौन पाळलं होतं...  
जीव लावणाऱ्या माझ्यानीच मला जाळलं होतं...!

एक दुसऱ्यांसाठी जगणे याचेच नाव जीवन असते...  
म्हणूनच वेळ त्यांना देणे ज्यांचे तुमच्यावर प्रेम असते...!

श्रीमंतीचे प्रदर्शन करण्यात अर्धी श्रीमंती खर्चून जाते...  
कमाई कमी जास्त असली तरी जेवणात पोळी एकाच  
आकाराची असते...!

## जीवनगाणे आनंदाचे

जीवन गाणे गातच रहावे,  
झाले गेले विसरून जावे,  
पुढे पुढे चालावे  
जीवन गाणे आनंदाचे....

मित्रांनो अगदी खरे आहे. आयुष्य हे असेच असते. सुखानंतर दुःख आणि दुःखानंतर सुख, हे तर जीवनाचे सूत्रच आहे. सुख आणि दुःख या तर एकाच नाण्याच्या दोन बाजू आहेत. म्हणून मनुष्याने आनंदाचा गुणाकार करावा व दुःखाचा भागाकार करावा, हाच माणसाचा खरा धर्म आहे.

एका अनुभवी व वृद्धग्रस्त आणि एका तरुणास आनंद प्राप्तीसाठी लागणाऱ्या दहा गोष्टी लिहावयास सांगितल्या, त्याने यश कीर्ती सन्मान अशा अनेक गोष्टी लिहिल्या त्या अनुभवी गृहस्थांनी ती यादी सोडून एकच गोष्ट लिहिली ती होती “मनाची प्रसन्नता”.

आपण आजपर्यंत जे काही केले ते आपल्या शक्तीनुसार सर्वोत्तम केले याची जेव्हा स्वतःला खात्री असते तेव्हा आपण संतोष असतो. ही सृष्टी म्हणजे आनंद.

आनंदासाठी हवा आशावाद व सकारात्मक विचार.

एकदा एक दगड फुलालाम्हणाला तो तू माझी शक्ती जाणतेस का? एका घावात तुझा चक्काचूर करून टाकीन;त्यावर फुल मंद स्मित करून म्हणाले ‘मित्रा, तुझा मी आभारी आहे, तसे करून तू माझ्यावर मोठा उपकार करत आहेस!कारण त्यामुळे माझा सुगंध सर्वत्र पसरेल. खरंतर दगड बोलत नाही. फुल उत्तर देत नाही. परंतु हा प्रतिकात्मकसंवाद माणसाला वेगळीच जीवनदृष्टी देऊन जातो. सकारात्मक विचाराची दृष्टी.

‘या विश्वात सर्वत्र आनंद असूदे |  
आनंदाला देखील अत्यानंद होऊ दे |  
इच्छांच्या ही इच्छा पूर्ण होऊ दे |  
आकांक्षाच्याही महत्वकांक्षा सफल होऊ दे’|

आईने बनवल,  
बाबांनी घडवल,  
आईने शब्दांची आळख करुन दिली,

बाबांनी जिंकण्यासाठी नीती दिली,

## पारीजात

पारीजात नातो बहरतोच की रोज माझ्या मनाच्या अंगणात  
रोजनवी फुले येतात त्याला रोज नवी आशा असते त्यात.

तोरोजच बहरतो पण लोकांच्या विचाराने तिथल्या तिथेच कोमेजतो.

एखादीनवी उमेद दिसण्या आधीच चिरडून टाकत त्याला कोणीतरी नकळत आपल्या पावलांनी.  
असंख्यविचार असतात मनात त्या छोट्या फुलांचा रूपात पण बहरण्या आधीच हिरमुसून जातो तो  
काही क्षणात.

तरीहीमी आशा सोडणार नाही आणि दुसऱ्याच्या मनातला पारीजात कधीच चिरडणार नाही.  
रोजनव्या ऊत्साने ऊभा राहिन आणि माझ्या मनातला पारीजात मी स्वतः बहरवत राहिन माझ्या

## बापाने मुलीसाठी व्यक्त केलेले मनोगत...

नाही ऐकली मी किलकारी

संस्कार चांगले देण्यासाठी  
कठोर मी झालो,

गटकन मी प्यायलो !

जन्माला येताच समजू लागलो मी राजा,

शिक्षण पूर्ण होताच लागली

लग्न मंडपात तुझ्या  
डोळे माझे पानावले,  
पाठवणीला जेव्हा तुला  
दुसऱ्याच्या हाती सोपवले !

हळूहळू चिमणी माझी  
मोठी होऊ लागली,  
या बापाच्या खांद्यावरची  
जबाबदारी आता वाढली !

एकेक पैसा जोडला  
मी तुझ्या लग्नाला,  
कमी नको काही पडायला  
म्हणून हात जोडले मी सावकाराला !

विसरणार तर नाही ना कधी

माझ्या शेवटच्या हाकेला !

मोठ्या शिक्षणासाठी  
पाठवायचे होते तुला शहरात,  
पैसा जपून ठेवण्यासाठी  
ठिगळ लावली मी कापडाला !

कन्यादान करण्याचे आज

## “मनाची - स्वभावाची सुंदरता”

शरीराची सुंदरता व याबरोबर संपते,

तर मनाची सुंदरता शेवटपर्यंत टिकून राहते.

शरीराला वय असतं मनाला ते कधीच नसतं...

शेवटी काय, आपण व्यक्तीच्या स्वभावाच्या प्रेमात असतो,

शरीर तर निमित्त मात्र असतं.

माणसाच्या स्वभावात गोडवा, शालिनीता, प्रामाणिकपणा आणि विनयशीलता असेल तर,

त्याची काही क्षण जरी सोबत मिळाली तरी हवीहवीशी वाटते...

म्हणूनच बाहेर लक्ष दिव्यांची सुंदर आरास असूनही

देवघरातील समईच्यापुढे आपण नतमस्तक होतो.

आयुष्यात अशी माणसं कधी भेटली तर त्यांच्यावर जीवापाड प्रेम करावे. आपल्या आवडत्या माणसाचं आपल्या सोबत असणं ही आयुष्यातील सगळ्यात मोठी कमाई. ती प्रत्येकाच्या वाटेला येथेच असे नाही. आजकाल अशी माणसं भेटतात तरी कुठे नशिवाने कधी भेटलीस तर हळुवार जतन करून ठेवावेत कदाचित पुन्हा भेटतील न भेटतील.

## स्त्री पुरुष समानता

ती घरात येते आणि सर्व काही आपलंसं करते,  
तरीही तिच्यावर रोष सर्वांचा असतो...!  
ती चिडली तरीही ती चिडखोर, रागीट  
तो चिडला की होतो कामाचा ताण...!  
तिच्या हातून चूक झाली की रागवणार सगळेच,  
ती बोलली की म्हणणार फटकळ,  
तो बोलला की म्हणायचे स्पष्ट वक्ता...!

एखाद्या गोष्टीस केला विरोध तर  
आई-वडिलांनी नाही लावले वळण,  
पण तोचत्यांने केला तर हेच  
नव्या पिढीचे चलन.

कमवून आणतो म्हणून नाही करणार तो घरातली कामे,  
पण हिने मात्र केली पाहिजेत घर सांभाळून सर्व काही बाहेरची  
कामे.

स्त्री पुरुष समानता म्हणून ओरडतो आम्हीच,  
आणि स्त्री वर चालली की खेचतो आम्हीच.

ऐसे जीव की संरचना को, हमने नया Course तैयार किया,  
नवौषधिनिर्माण हेतु, कई विषयों का पाठ्यक्रम में सार लिया,  
Basic Anatomy, Pharmacology, Maths सेलेकर जाने क्या क्या उसे पढ़ाने हैं।  
चार वर्षों के अथक प्रयास के बाद, हम Pharmacist नया बनाते हैं।

जिसे बनाया योद्धा हमने, उसे हमने, शस्त्र ही नहीं पकड़ाए हैं,  
जिसको दिखाया स्वप्न आकाश का, उसको पाताल में ले आए हैं, Skilled है पर Skilled नहीं, 4+2  
को 3+2 के समक्ष हमने बैठाया है, क़ानून तो हमने खूब बनाये, पर अमली जामा नहीं पहनाया है।

जो खुद को Pharmacist कहते हैं, उनको भी अपने गिरेबान खंगालने होंगे,  
सिर्फ Degree ही नहीं, ज्ञान के अनंत भंडार मस्तिष्क में डालने होंगे,  
हक़ तो आज नहीं तो कल, वैश्विक समरसता में शायद, हमें मिल जाएंगे, क्या हमारी भी कोई  
कोशिश है कि ज्ञान को अपने, विश्व के समरूप बढ़ाएंगे ?

## मैं डॉक्टर नहीं...

पर लोगों की सेवा करना मेरा धर्म है !!

जैसे एक डॉक्टर दवाइयों से जान बचाना है,  
वैसे ही मैं अपने ज्ञान से दवाइयों में जान भरती हूँ।  
मैंही हूँ जो डॉक्टर की लिखी पहचान सकती हूँ,  
मैं और कोई नहीं.... मैं PHARMACIST हूँ

## फार्मसिस्ट

तुम कड़वे काढे को, लजीज सिरप बनाते हो,  
जडी के पाउडर को तुम टेबलेट का रूप दिलाने हो,  
डॉक्टरको तुम उसके, हथियारों से लैस कराते हो,  
नामकिसी का होता है, तूम परदे पीछे मुस्कारते हो।

काम तुम्हारे उँचे है, पर वो सम्मान नहीं मिल पाता है ।  
सरदर्द से कैंसर तक, सब दवाएं फार्मसिस्ट बनाता है ।  
इंसानकी बेहतर सेहत में, तुम अपना हाथ बटाते हो,  
नितमेहनत करते रहते हो, गुमनामी में नाम कमाते हो ?

Proud to be Pharmacist

## माँ

सब कुछ सहती है, फिर भी चुप रहती है !  
अपना निवाला देकर, तेरा पेट वो भरती है !  
माँ ऐसी ही होती हैं, हाँ सच में माँ ऐसी ही होती है....

सारे दुःख झेलकर, खुश तुझे वो रखती है !  
अपना मारकर मन, तेरी जेब भरती है !  
माँ ऐसी ही होती है....

नौ माह भीतर रख कर, तेरी लाते सहती है !  
फिर भी सारे काम करके कितना दर्द सह लेती है !  
माँ ऐसी ही होती है....

तेरी खुशियों के खातिर, दुनिया से लड पडती है !  
पर तेरी सलामती की दुआ रोज को करती है !  
माँ ऐसी ही होती है....  
हाँ सच में माँ ऐसी ही होती है !

## भाई

हर गम हर खुशी मे  
साथ तुमने निभाया है,  
पापा न होकर भी  
पापा का फर्ज निभाया है !

जब जब मुसीबत आई है  
साथ मेरे खडे हो जाते है,  
भाई जैसा व्यवहार न कर  
दोस्त का फर्ज निभाते है !

जिसने रखा है मुझे  
सदा खुद से आगे,  
भला उस भाई से  
कोन दूर दूर भागे.

## होंसला

दिनकर बनने की तलाश में  
अंधेरो से रूबरू होऊंगा मैं ,  
बुनकर बन उधड़े लम्हों को  
आखिरी सांस तक सीने की कोशिश करूंगा मैं ,  
नही पता आखिर जीत कबतक पक्की होगी  
लड़ने को प्राथमिकता दे उससे पीछे न हटूंगा मैं ,  
हो सकता ग़लत बनूंगा कुछ नज़रों में  
पर अपना नज़रिया शीर्ष पर रखूंगा मैं ,  
रिश्तों के खत्म होने पर भी ज़रा भी आह न भरूंगा कभी  
रहूंगा कमज़ोर कई दफ़ा पर सामने मजबूत दिखूंगा मैं ,  
कभी आत्मविश्वास पर सवार हो सक्षमता की कश्ती बना  
समंदर की सतह पर राज करूंगा मैं ,  
ज़िम्मेदारियां केवल हिस्सा है जीवन का  
एकलौता इसे ही न सम्पूर्ण जीवन समझूंगा मैं ,  
रण में लड़ने आया हूँ पग पग पर लड़कर जाऊँगा  
विपरीत परिस्थितियों का हर हालात में विध्वंस करके  
जाऊँगा  
सृष्टि एवं जीवन एक है मुखालिफ़ हज़ार से भिड़कर  
जाऊँगा  
सामने आना है जिसको आये मैं वार असंख्य कर जाऊँगा  
खुद की शह से मुक्त हो अपने भय से भयभीत कर  
जाऊँगा  
एक मृत्यु के आने से पहले मैं हज़ारों दफ़ा जीकर जाऊँगा

## आत्मविश्वास

ये आसमां छीन गया तो क्या ?  
नया ढूंढ लेंगे,  
हम वो परिंदे नहीं जो  
उडना छोड देंगे !  
मत पूछ, हौसले हमारे  
आज कितने विश्रब्ध है,  
एक नई शुरुवात, नया आरंभ तय है  
माना अभी हम निःशब्द है!  
ये पारावर छूट गया तो क्या?  
नया सागर ढुंढ लेंगे  
हम वो कश्तियाँ नहीं जो  
तैरना छोड देंगे !  
कदम चलते रहेंगे ...  
जब तक श्वास है  
परिस्थिती मे परे  
स्वयं पर हमे विश्वास है!

एक रास्ता मिला नहीं तो क्या  
नई राहें ढुंढ लेंगे  
हम वो मुसाफिर नहीं जो  
चलना छोड देंगे !  
ये मुकाम नहीं हासिल तो क्या  
नये ठिकाणे ढुंढ लेंगे  
हमवो शय नहीं जो  
अपनी तलाश छोड देंगे!

हमवो परिंदे नहीं जो  
उडना छोड देंगे!

## मुकाम पाने में अगर नाकाम रहे,

मुकाम पाने में अगर नाकाम रहे  
तो शायद असफल है आप?

प्रेम यदि अधूरा रह जाये तो शायद असफल है आप?

जैसा समय निर्धारित करे केवल समझदार बन मौन रहे तो शायद सफल है आप .

आखिर है क्या ये सफलता जो दुनिया भर का आदमी पाना चाह रहा है, आखिर है क्या ये असफलता जिससे हर दूसरा इंसान डरा जा रहा है?

सुबह जो उठकर आगे बढ़ने का ज्ञान दे रहें है वही रात में नम आँख लिए बैठे है मतलब सुबह वह सफल है और रात में असफल ?

मतलब बंदो बिंदु तो है एक रेखा के- एक ओर सफलता और दूसरी ओर असफलता लेकिन बीच के सभी प्रयासों की चर्चा कौन खा गया ?

मतलब अंतिम बिंदु पर नहीं पहुँचे तो धकेल दिया जाएगा आपको इस मुकाम तक की सोच में पड़ जाएंगे आप!

शून्य बिंदु पर सटीक साँप सीढ़ी का खेल है नहीं? निन्यानवे चाल गिनी ही नहीं गयी दुनिया का पैमाना ऐसा खराब हो गया है वह आँकलन नहीं कर पा रहे निन्यानवे प्रयासों का ?

- कोई बात क्यों नहीं कर रहा उन सैकड़ों दिनों की जो इंसान ने लगाए है एक रास्ते के लिये ?
- कोई गढ़ना क्यों नहीं कर रहा उन असंख्य रातों की बातों की जिसने बुनाया है एक प्रेम के रिश्ते को ?
- कोई हज़ार प्रयासों को नज़रंदाज़ कैसे कर सकता है ?

## यादे

यादे भी क्या चीज होती है,  
कभी आंखो मे आसु ले आती है !  
कभी होटो पे मुस्कराहट बिखर देती है,  
कभी जीने की वजा बन जाती है  
कभी जीने नही देती  
कभी दिल को सुकून देती है  
कभी दिल को बेचैन कर देती है  
अगर यादे परमनंट होती तो

## प्राणायाम और योग: स्वास्थ्य और शांति की ओर एक प्रयास

प्राणायाम और योग दो ऐसी प्राचीन प्रथाओं में हैं जो भारतीय संस्कृति का महत्वपूर्ण हिस्सा हैं। ये विज्ञान और तकनीक के रूप में नहीं, बल्कि शारीरिक, मानसिक और आध्यात्मिक स्वास्थ्य के लिए एक प्रभावी उपाय हैं। प्राणायाम और योग न केवल शरीर को स्वस्थ रखने में मदद करते हैं, बल्कि विचारशक्ति और मानसिक स्थिरता को भी बढ़ाने में सहायता प्रदान करते हैं। प्राणायाम शब्द संस्कृत शब्द है, जिसका अर्थ होता है 'प्राण' (ऊर्जा या जीवनशक्ति) और 'आयाम' (नियंत्रण)। ये विशेष श्वास तकनीकें हैं जिनमें आप समय के साथ विशेष प्रकार की श्वासों को लेते हैं और उन्हें नियंत्रित करते हैं। प्राणायाम द्वारा आप शरीर को साक्षात्कार करने के साथ-साथ मन को शांत और स्थिर बना सकते हैं। इसके प्रभाव से न केवल आपका शारीरिक स्वास्थ्य सुधरता है, बल्कि आपका दिमाग भी शांत होता है और आपकी ध्यान क्षमता विकसित होती है। योग शब्द संस्कृत शब्द है, जिसका अर्थ होता है 'एकीकरण' या 'संयोजन'। योग के माध्यम से, आप अपने शरीर, मन और आत्मा को एकीकृत करते हैं। योग आसनो, ध्यान, मन्त्र जाप और प्राणायाम के माध्यम से साध्य होता है। योग का अभ्यास करने से आप अपने शरीर को लचीला बना सकते हैं, अपने विचारों को नियंत्रित कर सकते हैं और आत्मा की गहराई में स्थिरता और शांति प्राप्त कर सकते हैं। प्राणायाम और योग का अभ्यास करने के कई फायदे हैं। ये दिल के रोगों, श्वासनली संबंधी समस्याओं, मोटापे, तनाव, चिंता, निद्रा विकार, दिमागी स्थिरता, और सामरिक-मानसिक तनाव को कम करने में मदद करते हैं। ये शरीर को ऊर्जावान और स्वस्थ रखने में मदद करते हैं और शारीरिक लक्षणों को दूर करने के साथ-साथ मन को शांत और सुस्थित बनाते हैं। योग एक नियमित रूप से अभ्यास की जाने वाली प्रक्रिया है। आप योग का अभ्यास अपने दैनिक जीवन में सम्मिलित कर सकर सकते हैं। रोज़ाना कुछ समय अलग करके आसान योगाभ्यास और प्राणायाम करने से आप अपने शरीर और मन को स्वस्थ रख सकते हैं। योग के आसान और प्राणायाम को नियमित रूप से करने से आपका शरीर लचीला और ताकतवर होता है, मानसिक चिंताओं और तनाव से राहत मिलती है और आप जीवन को सकारात्मकता और शांति के साथ जी सकते हैं।

योग और प्राणायाम का अभ्यास करने के लिए आपको एक शांत और स्वच्छ जगह की आवश्यकता होती है। शुरुआत में आप एक प्रशिक्षक या गाइड के मार्गदर्शन में योग और प्राणायाम का अभ्यास कर सकते हैं। वे आपको सही तकनीक और श्वास नियंत्रण के बारे में बता सकते हैं। आप योग के विभिन्न आसनों का अभ्यास कर सकते हैं जैसे कि ताड़ासन, वृक्षासन, भुजंगासन, धनुरासन, पवनमुक्तासन, और शवासन। इन आसनों को सही ढंग से करने से आपके शरीर की लचीलापन बढ़ती है, स्पाइन को मजबूत और लंबा बनाती है और शारीरिक लक्षणों को दूर करती है। प्राणायाम के लिए आप अनुलोम-विलोम, कपालभाति, भ्रामरी, उज्जायी, और शीतकारी जैसे प्राणायाम तकनीकों का अभ्यास कर सकते हैं। ये प्राणायाम तकनीकें आपके श्वास-विकारों को सुधारती हैं, मन को शांत करती हैं और मनोवृत्तियों को नियंत्रित करने में मदद करती हैं। प्राणायाम और योग अभ्यास करने के लिए नियमितता और धैर्य की आवश्यकता होती है। शुरुआत में आपको थोड़ी समय देनी होगी अपने शरीर और मन को योग और प्राणायाम के अभ्यास के साथ समझने के लिए। जब आप इसे नियमित रूप से करने में सफल हो जाते हैं, तब आप इसे अपने दैनिक जीवन का हिस्सा बना सकते हैं। प्राणायाम और योग के अभ्यास से आप अपने शरीर, मन, और आत्मा को स्वस्थ रख सकते हैं। ये प्राचीन प्रथाएं आपको आनंद, शांति, और अच्छे स्वास्थ्य की ओर ले जाती हैं। योग के माध्यम से आप अपने जीवन को सकारात्मकता और समृद्धि के साथ जी सकते हैं। इसलिए, योग और प्राणायाम का अभ्यास करने के लिए समय निकालें और इसे अपनी दैनिक जीवनशैली में शामिल करें। योग और प्राणायाम की इस अद्वितीय शक्ति से आप स्वस्थ, स्थिर और पूर्णता की ओर बढ़ सकते हैं। ध्यान रखें, योग और प्राणायाम का अभ्यास करने से पहले एक योग गुरु की सलाह लेना आवश्यक हो सकता है। वे आपको सही तकनीक और सही ढंग से अभ्यास करने के लिए मार्गदर्शन कर सकते हैं। योग और प्राणायाम का अभ्यास करने से पहले शुरुआती स्तर पर ही शुरू करें और समय-समय पर अपनी क्षमता को बढ़ाते जाएं। इस अद्वितीय योगिक प्रक्रिया को अपनाकर, आप अपने जीवन में स्वास्थ्य, समृद्धि और आंतरिक शांति को प्राप्त कर सकते हैं। इसे नियमित रूप से अभ्यास करने से आप अपने शरीर और मन की सुधार कर सकते हैं और अपने पूर्णता की ओर आगे बढ़ सकते हैं। तो आइए, आपकी जीवनशैली में योग और प्राणायाम को शामिल करें और स्वास्थ्य और शांति का आनंद उठाएं!

## हे ईश मेरे मन को

हे ईश मेने मन को ।  
मन मेरा सुमन कर दो ।  
एसतम की अमावस को ।  
पूनम की किरण कर दो ।  
जन जन की भयनों में ।

देखुँ मे जलक तेरी ।  
साँसो की सरगम मे ।  
सून पाऊँ ललक तेरी ।  
मंदिर मे मेरे आकर ।  
मेरा जिना सफल कर दो ।  
क्या जग ने दिया मुझको ।

सपने हि दिखाए है ।  
कितनों ने मेरे मन में ।  
काँटे ही बिछाए है ।  
बस तूम मूझे अपनाकर ।  
मेरा साथ अमर कर दो ।  
हूँ सत्य सखी तेरी ।  
तेरी ही रहूंगी में ।

कोई सुख ना मिले मूझको ।  
कुछ भी ना कहूंगी मे ।  
तूम साथ मेरा देकर ।
